

CAPABILITY STATEMENT

G3 Innovative Solutions, founded in 2015 is a CMMC Level 2 Certified Information Technology services company with comprehensive experience delivering the most innovative technical solutions and subject matter experts to clients across Federal, State, and Commercial markets.

Core Competencies

-  Enterprise Infrastructure Operations & Engineering
-  Enterprise Architecture & Solutions
-  Software Development
-  Cybersecurity
-  IT Management & Consulting
-  Data Management & Analytics

Featured Clients

- DHS - Department of Homeland Security
- DIA - Defense Intelligence Agency
- DISA - J6 Pentagon \ Joint Service Provider
- DISA CESO - DISA Compartmented Enterprise Services Office
- DSCA - Defense Security Cooperation Agency
- FBI - Federal Bureau of Investigation
- FEMA - Federal Emergency Management Agency
- OSD - Office of the Secretary of Defense
- PFPA - Pentagon Force Protection Agency
- USACE - United States Army Corps of Engineers
- USAF - Air Force (CTA Member on \$12B EITaaS Wave 1 BPA)
- USAID - U.S. Agency for International Development
- WHS - Washington Headquarters Services

Company Data

- **Certified Minority Owned Small Business**
- **Facility Clearance:** Top Secret
- **NAICS Codes:** 541512, 518210, 541511, 541513, 541519, 541331, 541430, 541490, 541611, 541618, 541690, 541990, 561110, 561210
- **CAGE Code:** 7GWC2
- **UIE:** P2HJLDYRVNN6 / **DUNS:** 079996129
- **GSA Multiple Award Schedule (MAS):** 47QTCA20D007J
- **Missile Defense Agency SHIELD IDIQ:** HQ085925RE001
- **OASIS+ Small Business:** 47QRCA25DSA23
- **SeaPort-NxG:** N0017825D7371

Certifications & Compliance

- **CMMC Level 2 Certified**
- **Top Secret Facility Clearance**
- **ISO 9001:2015 Certified**
- **DCAA Compliant Accounting System**
- **Certified Maryland Minority (MBE), Disadvantaged (DBE), & Small Business Enterprise (SBE)**
- **Certified Prince Georges County Small Business**

Capabilities

Enterprise Infrastructure Operations & Engineering

- Active Directory Management & Design (On-Prem and Azure)
- Cloud Computing Management & Modernization
- Disaster Recovery & Continuity of Operations
- Enterprise Optimization
- Infrastructure Consolidation Network Services
- Network Administration & Engineering
- Systems Administration & Engineering

Enterprise Architecture & Solutions

- Cloud Computing
- End-User Computing
- Enterprise Project Management
- Enterprise Solution Design & Implementation
- Migration Planning, Operations, & Maintenance
- Solutions Development
- Zero Trust Management & Design

Software Development

- Application Testing & Evaluation
- DevOps / DevSecOps
- Application Development & Maintenance
- SharePoint Development & Administration
- Software Engineering
- Web Services
- Software Development Lifecycle Management

Cybersecurity

- Assessment STIG Compliance
- Cyber Strategies
- Cyber Threat Assessment Network
- Defensive Cyber Operations
- Enforcement & Validation
- Enterprise Security
- Risk Management Framework
- Security Operations Center
- Test & Evaluation
- Training

IT Management & Consulting

- Administrative Support
- Business Operations Support
- IT Consultation
- Program & Project Management
- Project Planning & Support
- Portfolio Management
- Strategic Communications & Planning

Data Management & Analytics

- Data Analytics
- Database Design & Management
- Data Center Operations & Maintenance
- Data Consolidation
- Data Governance
- Data Security

Past Performance & Accomplishments

Enterprise Infrastructure Operations & Engineering

As evident at the Department of Homeland Security's FEMA, G3 Innovative Solutions administers an intricate web of primary and mission-specific networks, ensuring seamless connectivity and robust data flow. Our expertise is not confined to terrestrial infrastructures; we excel in orchestrating data center and cloud-based networks, adeptly managing both tangible networking apparatus and pioneering in the realm of virtual, software-defined networks.

Enterprise Architecture & Solutions

G3 Innovative Solutions has trailblazed the DoD365 migration for the DISA JSP Enterprise, a testament to our leadership in enterprise solution deployment. Our orchestration of the technical migration for prominent defense agencies into the DISA JSP Forest exemplifies our innovative approach. We have crafted a unique semantic architecture that intricately weaves past, present, and prospective data, ushering in a new era of decision-making powered by interactive visualizations within a singular, user-friendly interface.

Software Development

At G3 Innovative Solutions, we redefine DevOps/DevSecOps with our pioneering semantic architecture technology, which synthesizes client's historical, current, and prospective data into an intuitive, interactive visual platform. This transformative approach to data integration empowers users with a comprehensive, actionable dashboard, streamlining decision-making and unlocking new insights from complex data relationships, all within a singular, user-friendly interface.

Cybersecurity

Our cybersecurity rigor within DISA's JSP and CESO as well as the U.S. Army Corps of Engineers, Department of Justice, and FEMA is unmatched, encompassing meticulous device configuration audits and the creation of comprehensive compliance diagrams. Our Certification and Accreditation endeavors go beyond mere protocol, aligning engineering solutions with stringent DoD standards and ushering in the Risk Management Framework era. Leading the vanguard, our technical scans and vulnerability analyses fortify the secure DoD environment. Our Continuous Monitoring and Zero Trust adaptive approach to cybersecurity champions and accelerates the architecture and framework that secures and protects information enterprises across our federal clients.

IT Management & Consulting

G3 Innovative Solutions acumen in program/project management is evident through our stewardship within the U.S. Army Corps of Engineers, DISA JSP and other federal agencies, where we ensure a symphony of operations by contractor and subcontractor teams. Our scalable framework is engineered to support an enterprise of diverse funding sources, with meticulous tracking of project and contract metrics, ensuring transparency and accountability in requirements, deliverables, and financial management.

Data Management & Analytics

Collaborative at our core, G3 Innovative Solutions' partners with stakeholders to crystallize data management protocols essential for a resilient IT roadmap that preserves data integrity. We stoically implement and oversee JSP-sanctioned data management tools, capturing performance metrics and historical trends. Our analytical prowess enables insightful reporting that propels informed strategic decisions.
